MAXPOD 5200mAh portable recharger User Manual

Introduction:

Before using your MAXPOD charger for the first time, please take a few moments to read through the user manual.

1 - USB smart port 2 - On/off switch 3 - Micro USB connector 4 - LED power indicator

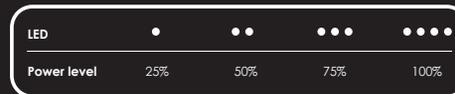

Use:

To charge your phone, tablet or USB device simply plug in the USB cable. For devices that charge via Micro USB sockets you can use the charging cable provided. Switch on MAXPOD and leave connected until your device is fully charged. The 4 LED lights will diminish on the back of the MAXPOD as your device becomes charged. Once all the lights have gone out, your MAXPOD will need to be recharged. If your MAXPOD is left switched on and not connected to a device it will automatically power down and switch off. To re-activate you will need to switch off and on again.

Charging:

The LED lights on your MAXPOD charger will flash blue in 4 stages, it is fully charged once all 4 LED lights are solid blue.

Your MAXPOD contains a Lithium-ion battery. Please use the provided Micro USB cable to charge the battery through a PC or USB mains charger. Normally it will take 8-10 hours to fully charge the battery.
