Overview

How to Connect

Power on headset and it will auto turn connectable. On phone, search "orbit" and tap to connect. It will auto reconnect to the last device in connectivity record. If you want to make search again, power it off and press and hold MB for 4s.

Multi-Point Connection

Connect as above, then switch off Bluetooth on that device and start pairing procedure on 2nd device. You will now then have a choice of 2 device to play from.

Functions

- 🔊 Power-on: Hold MFB for 2s
- 🔊 Power-off: Hold MFB for 4s
- 📞 Answer/end call: Press MFB
- 📞 Ignore call: Hold MFB for 1.5s
- ⏮ Skip track backward: Hold Volume- for 1s
- ⏭ Skip track forward: Hold Volume+ for 1s
- ⏩ Volume up: Press Volume+

LED

Connected: LED blinks white every 10s
Charging: LED glows solid red
Top-up: LED glows solid white

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
--Reorient or relocate the receiving antenna.
--Increase the separation between the equipment and receiver.
--Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
--Consult the dealer or an experienced radio/TV technician for help.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
